Dear Judge Bernstein and Chantel:

We have spoken with a number of New York Bankruptcy Attorneys to seek to get them to take this case, including some who know Judge Bernstein personally. It seems that the Judge has required that we have a New York attorney, yet the attorneys are being intimidated, threatened and warned of "political implications" if they take our case.

We are making this communication known to the world press and independent news organizations so that the obfuscation of our rights is publicly documented.

It is clear that methods are being used to blockade our legal and civil rights as part of a political vendetta, retribution, reprisal effort.

How will the U.S. Bankruptcy Court for the Southern District of NY provide us, as in pro per Plaintiffs, with equal rights in this case, cease the blockades of our rights and allow us fair access to the hearings as we have requested in writing numerous times?
